

Biography Prof. Lhou MAJIDI

Laboratoire des Substances Naturelles &
Synthèse et Dynamique Moléculaire, Faculté
des Sciences et Techniques, Université Moulay
Ismail, Errachidia, Morocco

L. Majidi was awarded a PhD degree in Applied Organic Synthesis in 1996. He is currently a Professor in the Faculty of Science and technologies, My Ismail University, Morocco. He is the Director of the laboratory of Natural Substances & Synthesis and Molecular Dynamic; also head Doctoral Formation of Chemistry and Environment of Chemical department. His research interest covers organic synthesis, extraction and characterization of natural products, corrosion inhibition of steel and copper. He is a reviewer at several journals. He is also author of two books in organic chemistry and over 50 scientific research papers and delivers several conferences to several international meetings.
