Prof. Abdeslam EL ASSYRY

Professor Abdeslam EL ASSYRY is Professor of State in Faculty of Science Ben M'Sik at the Hassan II University, Department of Physics, Laboratory of Polymer Physics and Critical Phenomena.

Pr. Abdeslam EL ASSYRY was born in 1972 in Chefchaouen City, Morocco. He received his Doctorate in Modeling and Biomolecular Spectroscopy, from Ibn Tofail University, Morocco, 2005. He had published more than **53 papers** in international journals (*indexed Scopus*) with *h-index* = **15** and presented about **40 communications** in symposia and national/international meetings. He is a reviewer at several international journals, especially at JMES, MJC, AJC and RCI. He is the author of a *two books*. His main research interests are in the field of Physical Chemistry, Physics and Astronomy, Materials Science and Environmental Science, Especially (Optoelectronic and materials Spectroscopy). He is currently interested in using some quantum chemical methods like density functional theory (DFT) and other semi-empirical methods (GAUSSIAN, AM1, MNDO, CNDO, AMYR, ...). Recently, he is interested in the new materials for nonlinear optics and applications and the novel organic dye-sensitized solar cell.
